Models 693EX/694EX/695EX

APPLICATIONS

For overlock sewing of light to heavyweight materials

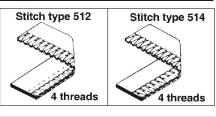

Model 695EX - True Safety Stitch - suitable for sewing products such as men's, ladies' and children's wear, especially coats for children and women. Designed for general seaming on wovenfabrics. Also suitable for edging vinyl, canvas and upholstery fabrics

Stitch type 515 4 threads

Model 695HEX - Heavy duty version with tractor foot

Model 694EX - Mock Safety Stitch - suitable for seaming sides and joining front and side panels on ladies' swim suits, childrens' play pants; closing sides on ladies' panties: setting sleeves on ladies' uniform dresses and knitted sport shirts; sewing cuffs to sleeves and attaching pocket pieces to front and back on ladies' robes; setting body lining on men's raincoats, etc. Equipped to handle medium to heavy weight materials and designed for sewing stretchable materials or fabrics which need elasticity in stitching.

Model 693EX for general overedging such as hemming sleeves on men's knit underwear, closing shoulder for T-shirt, overedging net lining for tricot slips, closing skirt panel, attaching bodice and yoke fortricot slips etc. (also does stitch 503)
